PREFACE

On June 20, 1928, the Hawaii Bureau of Governmental Research was incorporated as a non-profit-making, non-partisan citizens organization to study public affairs, co-operate with officials, and work for efficiency and economy in governmental business.

In its work, the Bureau found need of certain pertinent information and data concerning each and every department, board, commission and other agency of the Territorial Government. This information is published with a view to serving a manifold purpose:

1st To supply the Bureau with the primary information which it requires.

2nd To provide governmental officials with a ready reference to data concerning the affairs of other governmental agencies with which they are not directly connected, and

3rd To afford to citizens of the Territory, a source of more intimate knowledge of their government.

In making use of this information it must be borne in mind that reference to "Qualifications" means qualifications required by law; that "Duties and Activities" are those named in the statutes—and "Cost for the Fiscal Year" generally speaking, means departmental operating cost, and does not include outlay for permanent improvements, other than equipment.

The data contained herein is presented as of November 1, 1928.

In preparing this Hand Book, the Bureau received the co-operation of the many Territorial Officials with whom it came in contact and wishes to take this opportunity to express its appreciation thereof.

Hawaii Bureau of Governmental Research
Oscar F. Goddard, Director.

Act 56 S. L., 1925—Providing for the Budget System—creation of Budget Bureau. Governor to transmit Budget to Legislature, contents of Budget, Etc.

Duties and Activities: The executive power of the government of the Territory is vested in the Governor, and he is responsible for the execution of all laws of the United States and of the Territory, within the Territory.

The Governor may call on the military or naval forces of the United States in the Territory, or the Militia of the Territory, declare martial law and suspend the privilege of habeas corpus. He may grant pardons and reprieves for offenses against Territorial laws and temporary reprieves for offenses against laws of the United States.

He appoints the Attorney General, Treasurer, Commissioner of Public Lands, Commissioners of Agriculture and Forestry, Superintendent of Public Works, Superintendent of Public In-

struction, Auditor and Deputy Auditor, Surveyor, High Sheriff, Board of Health, Commissioners of Public Instruction, Boards of Prison Inspectors, Boards of Registration and Inspectors of Elections—and any and all other Boards of a public character created by law, or other officers whose appointment is not otherwise provided for.

Annual reports are submitted to the Governor by all Officials or Department Heads of the Government and he, in turn, transmits to the Secretary of the Interior, an Annual Report concerning all activities within the Territory.

At the beginning of each regular session, the Governor transmits a "budget" to the Legislature which must contain a report of receipts and expenditures for the last completed biennial period; estimates of the same for the current biennium and recommendations for the ensuing period; a balanced statement showing the condition of the Treasury at the end of the last completed biennial period, and the estimated condition for the one in progress and at the end of the ensuing period; all essential facts relating to the bonded and other indebtedness of the Territory, and certain other related details and recommendations, including deficiency appropriations, if necessary.

Sec. 1248 R. L. as am.—Registrar and Deputy Registrar of Public Accounts.

Sec. 3420 R. L., 1925—Deputy Insurance Commissioner.

Sec. 3463 R. L., 1925—Chief Deputy Fire Marshal.

Sec. 1286 R. L., 1925—"Assessors" for the four Taxation Districts.

Ch. 182 R. L., 1925—Bureau of Conveyances under direction of Treasurer.

Activities: The executive department of the Treasury is presided over by the Treasurer of the Territory. He is charged

with general supervision over the financial affairs of the Territory; with the enforcement of all revenue laws; the collection of taxes; the safe-keeping and disbursement of the public funds; the registration of domestic and foreign corporations, co-partnerships, labels and trademarks, newspapers and other publications; business conducted by married women and with all matters appertaining to inheritance taxes. He issues commissions to joint marriage licenses and to perform marriage ceremonies; grants licenses to secret organizations, etc.

The Treasurer, as Bank Examiner, is further charged with the examination and audit of the accounts of the Treasurer and Auditor of each County and City & County, or other political subdivision of the Territory.

As *Insurance Commissioner*, he is chief officer of the Insurance Department, charged with the execution of the laws relating to the conduct of all classes of insurance business in the Territory, excepting fraternal or mutual benefit societies.

The Commissioner appoints a deputy and in the inability of the Commissioner from any cause to discharge the duties of this office, the powers and duties devolve upon the deputy.

The provisions of the insurance law relating to fire prevention and inspection of property are carried out in the Commissioner's capacity of ex-officio *Territorial Fire Marshal*, and as such, he appoints a chief deputy and necessary clerks.

The Treasurer is custodian of the "*territorial insurance fund*" and invests the same to the benefit of the fund.

All fees collected under the prescribed schedule are paid into the treasury of the Territory as a governmental realization.

The Treasurer and the Registrar of Public Accounts are each, ex-officio, a *bank examiner* of the Territory and it is the duty of the Treasurer to appoint a deputy bank examiner to perform the duties of the office.

The duties are to make examinations of the affairs and condition of every banking corporation (other than a national bank) trust company and every other fiduciary company as defined by law, doing business in the Territory; likewise, the affairs of a co-partnership or of an individual conducting a banking or trust business.

A schedule of fees, to be paid to the Treasurer, is prescribed by law for making all examinations.

For the purpose of taxation, the territory is divided into four divisions, as follows:

- 1st Division—The City & County of Honolulu
- 2nd Division—The Counties of Maui & Kalawao
- 3rd Division—The County of Hawaii
- 4th Division—The County of Kauai

The Treasurer, with the approval of the Governor, appoints an "Assessor" for each division and each Assessor, with the

concurrence of the Treasurer, appoints as many deputies as may be required in assessing and collecting the taxes in the several divisions.

The compensation of the Assessors is fixed from time to time by the Legislature, and the salaries of the deputies is fixed by the Assessors, with the approval of the Treasurer.

The several Assessors, with the Treasurer as Chairman, constitute a *Board of Equalization* for the purpose of equalizing assessments of property throughout the Territory. The Board holds meetings from time to time as designated by the Chairman, adopts rules regarding assessments and valuations and publishes findings where valuations made are of general application.

It is the duty of the Treasurer to have prepared and to forward to the Assessors of the several tax districts for use in valuation of property, an abstract of certain records from the registry of conveyances, detail maps and other pertinent data.

The Income Tax Bureau under the Territorial Treasurer levies and assesses annually upon the gains, profits and income received from every individual residing in the Territory, on property owned, every business, trade, profession, employment or vocation carried on in the Territory, also the tax on corporation income on the basis of the net profit or income above actual operating and business expenses, except corporations, companies or associations conducted solely for charitable, religious, educational, scientific or fraternal purposes, in accordance with the requirements of the Territorial Income Tax laws.

Taxation Maps Bureau, with a Chief of Bureau in charge under the Territorial Treasurer prepares and keeps up-to-date the maps of all property in the Territory for the purpose of assisting the assessors in arriving at a correct valuation of the property within their respective divisions. From time to time, this Bureau prepares detailed maps as far as the material is available, of the respective tax divisions, showing original titles and areas, and as far as possible, all present titles. The Chief of Bureau has an organization of six engineers, draftsmen and assistants.

The *Committee of Estimates* for the school budget consists of the Treasurer of the Territory as Chairman, the Superintendent of Public Instruction, the Mayor of the City & County of Honolulu and the Chairman of the Board of Supervisors of the several counties. This committee meets in Honolulu at the call of the Chairman to consider the biennial school budget of the public schools. They serve without pay, but are entitled to traveling expenses paid out of funds provided for the general expenses of the Department.

The Auditor, as Chairman, the Treasurer and the Super-

intendent of Public Works constitute the *Board of Disposal*, concerned with the disposal of territorial property by sale, exchange or otherwise.

As member of the Board of Trustees and custodian of the several "funds" of the *Territorial Retirement System*, the Treasurer makes all payments authorized from said funds, but the Board as a whole, acting as trustee of the several funds created, has full power in the management and investment of these funds.

The Treasurer, Attorney General and Commissioner of Public Lands are eligible to membership on the *Farm Loan Board* and at present constitute the same. This board is responsible for the administration of the laws relating to farm loans in the Territory.

When the officials above named are appointed as members of the board, they receive the compensation provided in the act, of \$100.00 per month and traveling expenses in addition to their salaries as officials of the government.

The *Bureau of Conveyances* in the department of the Treasury is under the superintendence of the Registrar of Conveyances, appointed by the Governor on nomination of the Treasurer and holds office at the pleasure of the Governor. He conducts the bureau under direction of the Treasurer.

The Registrar is required to keep a "Daily Entry Book" of appropriate arrangement in which are entered in the order received, all deeds and instruments left for record, all copies left as cautions and any plan filed. An entire literal copy of all instruments to be recorded is made in suitable books.

A set of cross indexes is kept in which are entered in alphabetical order, the names of every grantor, grantee or other parties, and the Registrar is further required to prepare certain annual and decennial indexes.

The return of a commissioner appointed to make partition of real estate, when filed, is entered in the entry book and carried through the indexes with names of all previous affected property noted. Any plan of land, fully complying with all requirements and carrying the approval of the Surveyor of the Territory, shall be filed.

Attested copies of any instrument or document recorded in the bureau, certificates of search, etc., are furnished on payment of specified fees.

In the absence of the Treasurer from the Territory, the Registrar of Public Accounts, acts as Treasurer.

DEPARTMENT OF PUBLIC LANDS

Department Head: C. T. Bailey, Commissioner of Public Lands.

Appointment: Appointed by the Governor, with advice and consent of the Senate.

Term: Four (4) years.

Term Expires: April 27, 1931.

Qualifications: Must be a citizen of the Territory of Hawaii and shall have resided therein for at least three years next preceding appointment.

Compensation: Fixed by General Appropriation Bill biennially. Present biennium \$5,700 per annum.

Law References:

Org. Act, Sec. 73—Duties, powers, etc.

Org. Act, Sec. 80—Appointment.

Ch. 42 R. L., 1925—Commissioners of Boundaries, records, etc.

Sec. 535 R. L., 1925—Powers of Commissioner in respect to Hawaiian Home Lands.

Sec. 645 R. L., 1925—Division of Hydrography, authorization for transfer of Division and duties.

Act 179 S. L., 1925—Designated as depository for documents conveying real property to the Territory and political subdivisions thereof.

Duties and Activities: The management of all lands in the possession, use and control of the Territory is vested in the Commissioner, except such as shall be set aside for public purposes, as provided by law.

The Commissioner of Public Lands shall prepare and issue through his office, all land patents, leases, grants or other conveyances of any government lands or real estate. He shall also, by and with the authority of the Governor, have power to lease, sell or otherwise dispose of public lands and other property, in such manner as he may deem best for the protection of agriculture and general welfare of the Territory, subject, however, to such restrictions as may from time to time be expressly provided by law. He shall also cause to be surveyed annually and open for homestead purposes, a reasonable amount of desirable agricultural lands and also of pastoral lands in the various parts of the Territory. He is also authorized to perform any and all acts, prescribe forms of oaths and, with the approval of the Governor and the Board of Public Lands, make such rules and regulations as may be necessary

and proper for the purpose of carrying the provisions of Section 73 of the Organic Act and the land laws of Hawaii into full force and effect. He shall keep a full record of all lands in the possession, use and control of the Territory, as well as all transactions thereto.

All documents conveying real property to the Territory or to any political subdivision thereof, shall, with two blue-print plans of the property acquired, be filed with the Commissioner of Public Lands, who shall in turn have such documents recorded by the Registrar of Conveyances. All such records of the Department of Public Lands shall be open to the public.

Under this department there is also maintained the Division of Hydrography, in charge of a Chief Hydrographer for the investigation and determination of water resources of the Territory, and in co-operation with the United States Geological Survey to conduct a hydrographic survey of the Territory. It maintains a large number of gaging stations on the various islands, obtaining continuous records of stream flow. These stations are visited regularly by the engineers of this department. The department has, by law, full authority at all times to enter without warrant, the premises where an artesian well is situated, or whereon or wherein artesian water is used to procure such information as may be necessary.

The Topographic Survey Division, which is also under the cognizance of this department, is working in co-operation with the United States Geological Survey on a topographic survey of the Territory. The work is in charge of a Topographic Engineer of the U. S. Geological Survey.

Duties and Activities: The Superintendent of Public Works is charged with the superintendence and management of internal improvements of the Territory. It is his duty to cause such surveys, maps and plans of government lands, harbors and internal improvements to be made as the public interests may require, which shall be kept in his office for public inspection and reference.

For the purpose of making preliminary plans, etc., for improvements to be paid for from Loan Funds, there is a \$50,000 Revolving Fund provided. The expenditures from this fund are to be reimbursed when bonds are sold and funds allotted for the specific purpose for which the plans were prepared. The Superintendent may require the Street Railway Company to sprinkle streets along their line within a mile of the postoffice.

Where moneys are provided, the Superintendent of Public Works shall provide each school and courthouse with suitable U. S. flags and bunting and suitable flagstaffs.

For the purpose of carrying out public improvements, the Superintendent of Public Works is vested with power of eminent domain.

Plans and specifications for roads or other permanent improvements, the Superintendent of Public Works is vested with power of eminent domain.

Plans and specifications for roads or other permanent improvements made from the proceeds of Territorial bonds issued for County and/or City & County purposes, must be approved by the Superintendent of Public Works.

The Department of Public Works is designated as the Terri-

torial Highway Department, and maintenance moneys for the purpose of maintaining highways constructed with Federal Aid are required to be turned over by the County to this Department for expenditure, as the Federal Government does not recognize County organizations.

In addition to having charge of new construction work, this Department is charged with the maintenance and upkeep of the general Governmental Buildings and grounds.

Department authorized to give bond for use of Military Equipment.

Salary schedule adopted by Department and approved by

Governor passed by Legislature and becomes basis for tax levy for teachers' salaries.

Limitations: Not to exceed 1 teacher for every 35 enrolled Public Elementary School Students and 1 for every 20 High School Students at time of highest enrollment in preceding year, plus 7.5% in such enrollment after September 1st of the current year. This does not include Principals of schools with more than 15 assistants and not more than 35 Supervisors and not more than 190 Vocational and Prevocational Teachers of which not more than 125 shall be Prevocational Teachers and not more than 40 secretaries for Supervising Principals and Schools which have 25 or more teachers.

Provided—the total monthly payrolls shall not exceed \$4.65 per student enrolled in grades 1 to 8, inclusive; and \$8.75 per student enrolled in grades 9 to 12, inclusive. Tax is levied for teachers' salaries without regard for county in which it is spent.

Budgets for departmental salaries, expenses, equipment and special schools must be prepared on or before December 15th of each even year. This budget is financed by taxes levied against the Territory as a whole, without regard for point of expenditure. This fund is known as the General School Fund, and is kept in the Territorial Treasury.

Budgets for new buildings, new grounds, repairs and maintenance to grounds; furniture and fixtures and janitor service and supplies are prepared on or before December 15th of each even year. This budget is financed by direct taxation in the County in which the proceeds are to be spent. This fund is known as the Special School Fund and is kept in the County and City & County Treasuries. This budget is prepared by the Department and reviewed by the Board of Estimates, which may change any items. It is then forwarded to the Legislature by the Governor, who submits it to the Legislature with his recommendations. The Board of Estimates is composed of the Mayor of Honolulu, the Chairman of the Boards of Supervisors of the other Counties, the Treasurer of the Territory, and the Superintendent of Public Instruction.

Sections 342 and 1315 of the Revised Laws of 1925 appear to be in conflict as to the disposition of any unused balance in the Special School Fund at the end of the appropriation period:

1st: To be spent as Supervisors direct, with approval of the Superintendent of Public Instruction.

2nd: To be used to reduce taxation following year.

There is a \$600,000 Revolving Fund in the Territorial Treasury which is used to defray expenses of the Department and pay teachers' salaries prior to collection of taxes for the purpose. When taxes are collected, this fund is reimbursed.

The Department may prescribe agricultural and industrial training in the Public Schools, which courses shall be compulsory. Public lands may be used for this purpose and Department may also acquire land for this purpose. The net profits from such activities may be used for purchase of material and equipment or may be distributed among pupils producing. In Territorial Trade Schools, proceeds to be divided 50%-50%; i.e. one-half to school and one-half to pay students for work.

Counties provide and maintain school buildings and grounds.

Superintendent may visit freely any Prison at suitable hours.

Fire drills to be held in Schools at least once each week; doors to open outward and be kept unlocked during school hours.

Any person may sue for three times gambling winnings if loser has not sued in three months. Money recovered to go half to person suing, and half to Schools.

County of Hawaii must furnish transportation for pupils to certain Schools.

No teacher afflicted with tuberculosis shall teach in Public Schools.

SURVEY DEPARTMENT

Department Head: Walter E. Wall, Surveyor, Territory of Hawaii.

Appointment: Appointed by the Governor with advice and consent of the Senate.

Term: Four (4) Years.

Term Expires: May 21, 1929.

Qualifications: Must be a citizen of the Territory and shall have resided therein for at least three years next preceding appointment.

Compensation: Appropriation made by Legislature biennially: present rate of pay \$5,400.00 per annum (1927-1929).

Law References:

Sec. 3225 R. L., 1925—Court may refer maps and plans to surveyor for verifying and checking on the grounds.

Ch. 43 R. L., 1925—Survey and adjudication of land not properly set forth with boundaries.

Act 213 S. L., 1925—Authority to enter upon private lands.

Duties and Activities: This Department does all surveying necessary in connection with the handling of the Territorial lands (homesteads, forest reserves, lot-subdivisions, triangulation, and lands for public purposes. The surveyor is authorized, under certain conditions, to make the necessary surveys and have the boundaries of listed unsurveyed private lands adjudicated at the expense of the owners. All surveys and maps filed in the Land Court for registration of title to lands other than Territorial, are referred to the surveyor for verification and check on the ground. Title reports are furnished the Attorney General on any public interests that might be affected by application before the Land Court, and this is an important work since the Territory guarantees title, and is expected to safeguard all public rights that may exist. Surveys affecting Territorial interests (boundaries, titles, water rights, fisheries, easements, etc.) are referred to the Survey Department for examination and approval. Maps of private lands filed in the Office of the Registrar of Public Conveyances for the purpose of deeding areas by lot and block numbers must first have the approval of the surveyor after an office check and examination. The maps and other records of the Survey Department practically account for all of the original titles to all lands in the Territory and are available to the public during office hours without fee.

The Department also maintains a time service and rates chronometers for navigators, and operates the automatic tide gauge for the U. S. Coast and Geodetic Survey.

The surveyor is a member of the "Advisory Committee on Hawaiian Geographic Names", this being a local committee which acts only in an advisory capacity to the U. S. Geographic Board.

- Duties, Activities and Regulations:* The Board of Health consists of seven members, four of whom shall be laymen, two physicians and the attorney general, acting as a member ex-officio. The Board appoints its Secretary, agents and physicians. It has oversight and care of the health of the people

of the Territory. It has authority in matters of quarantine and other health matters and may declare and enforce quarantine and modify and release quarantine when it is established. It is the duty of all County and City and County health authorities, sheriff and police officers and all other officers and employees of the Territory and every County and City and County thereof to enforce the rules and regulations of the Board of Health. Such powers and health matters as have been or may be conferred upon any County or City and County shall be concurrent with those of the Board of Health. It shall make, through its President, an annual report to the Governor showing in detail all its expenditures and transactions and such other information regarding the public health as it may deem of special interest.

The Board of Health shall keep a regular record of its proceedings. It shall also during the prevalence of any severe pestilence or epidemic, publish a weekly report of the public health. The Board of Health, with the approval of the Governor, may make regulations respecting nuisances, foul or noxious odors, gases or vapors, water in which mosquito larvae breed, sources of filth, causes of sickness or disease in the Territory and on board any vessel; also respecting adulteration and misbranding of food or drugs; location, air space, ventilation, sanitation, drainage and sewage disposal of buildings, courts, areas and alleys; privy vaults and cesspools; fish and fishing; interments and dead bodies; cemeteries and burying grounds; laundries, stables, bakeries, poi shops, abattoirs, fish, meat or vegetable stores or markets, hotels, lodging houses, tenements or any place or building where noisome or noxious trades or manufactures are carried on, or intended to be carried on; milk poisonous drugs; pig and duck ranches; as it shall deem necessary for public health safety. To publish regulations in newspapers and where none exist, to post same.

The Civil Service Commission of the Board of Health has charge of examinations and classifications of applicants and employees of the Board of Health. The Commission, with the approval of the Governor, makes rules and regulations governing the selection and appointment of persons to be employees; such rules and regulations presumably to ascertain the physical and educational qualifications of applicants. A competitive examination is to be provided and may provide for special inquiry and examination for each class of employee. Employees may be removed only under the rules and regulations prescribed by the Commission. Vacancies to be filled as far as possible and practicable by promotion, otherwise, persons who satisfactorily pass examination. The Civil Service Laws exclude the President, Secretary and Members of the Board of Health, bacteriologist, pathologist, physicians in charge of

treating tuberculosis, physicians engaged in segregation and treatment of leprosy and also permit the Board of Health to employ any help found necessary in times of epidemic. Employees of record April 26, 1913 exempted from examination.

The Board of Health may order the abatement of any nuisances and require the owner of the property on which such nuisance is located to correct, at his own cost, and in the event that it is not done, the Board may do it itself and charge the property owner.

The law defines certain diseases as communicable and infectious diseases and provides physicians, householders, inn-keepers, masters of vessels and other persons of knowledge to report cases to the Board of Health, who shall quarantine or remove the patient. It is the duty of the bacteriologist of the Board of Health to examine sputum of a patient to determine the presence of tuberculosis and to make record of his findings and advise the physician in charge and to keep such record and information secret; to disinfect premises where tubercular patient has died or been removed, and under certain conditions, to prohibit occupancy of certain classes of domicile. It is also the duty of the Board of Health to enforce cleanliness of persons having tuberculosis.

It is the duty of the Board of Health to appoint Vaccinating Officers in each Taxation Division, who shall vaccinate in convenient places in each school district at least once every six months; officers to record such vaccination and make report of the same to the Board of Health. Children are to be vaccinated within six months after birth and eight days after the vaccination, the vaccinating officer is to ascertain by inspection, the result of such operation and if found successful, to give certificate thereof.

The Board of Health is authorized to purchase radium and charge for the use thereof, and from such proceeds pay for the insurance of the radium.

Bakeries, laundries, poi shops, abattoirs, stables, fish markets, vegetable markets, hotels, tenements, lodging houses or buildings where noisome or noxious trades or manufactures are carried on can only be permitted or licensed by any County with authority of the Board of Health. The Board may direct the cancellation of any permit or licenses thus issued for cause.

The Board of Health may establish drainage or fill-in-districts, prepare maps and plans thereof and turn the same over to the Department of Public Works for execution, the cost of same to be distributed by assessment against the property owners. This is done by service of notice, hearing, decision and right of appeal. In this connection the Superintendent of Public Works may exercise the right of eminent domain. For the purpose of carrying on this work, a \$500,000 Revolving

Fund is provided, and it is under this law that the Ala Wai Canal and Waikiki fill-in was accomplished. The Fund is for the original cost, which is to be reimbursed, as far as possible, from the proceeds of the charges by the property owner.

To carry out the Pure Food and Drug Act and Adulteration Law, the Board of Health shall appoint a qualified Commissioner or Analyst who shall give a bond of not less than \$2000 and whose duty it is to procure samples and make analyses of food, of persons who lay before him satisfactory evidence concerning same. The Board may also appoint deputy Commissioners and Analysts. The Commissioner shall make monthly reports in detail concerning its activities to the President of the Board of Health. It is the duty of the Board of Health to license physicians, osteopaths, veterinarians, etc., for which several Boards of Examiners are provided. It is also the duty of the Board to register nurses, for which purpose a Board of Registration is provided to conduct examinations and authorize registration. The President of the Board of Health may revoke licenses and permits for cause.

The Territorial Hospital, generally known as the insane asylum, is in the hands of a Superintendent, who, among other things has charge of the business administration thereof and is under the control of the Board of Health. The purpose of this hospital is for the detention of insane persons, drug addicts, habitual drunkards and the like. Commitment, discharge and parole of patients is in the hands of the Insanity Commission, which is a Commission of three persons qualified as examiners in insanity, who shall hold office for four years, unless sooner removed for cause. These Commissioners are paid \$5.00 for each examination. For commitment, discharge or parole, in the event that the examination takes more than one day, the fee shall be \$5.00 for each day the examiner is engaged on the case. The hospital may also receive voluntary commitments. Only indigents are to be permitted without cost, whether the commitment be compulsory or voluntary.

The four institutions for lepers and their children are under the direct supervision of the Board of Health. These institutions are: Kalihi Boys' Home; Kapiolani Girls' Home for non-leper children of leper parentage; Kalihi Receiving Station, for the reception and treatment of lepers—and the Leper Settlement on Molokai, known as Kalaupapa, which institution is for the care of incurable cases. Examination, treatment and commitment, parole and discharge of lepers or suspects is in complete charge of the Board of Health. Visitors are not allowed and no pictures can be taken at Kalaupapa without written permission from the Board of Health. There is a \$15,000 Revolving Fund provided for the operation of the Kalaupapa Store, which store is provided to furnish the in-

mates of the settlement with commodities at cost. There are very few laws and regulations laid down for the handling of leprosy, this responsibility being placed very largely with the Board of Health. When any leper or kokua residing at Kala papa or the Kalihi Hospital shall die without leaving an executor or administrator, the Board of Health may distribute his property to the proper persons, with the approval of the Attorney General. Any proposed distribution, however, must be published once a week for four successive weeks.

The law provides for a Registrar General and Registrars in several localities, whose duties shall be to report the vital statistics of the Territory concerning birth, death and marriage. In connection with births, the records as far as information can be obtained are to show the name of the father, the name of the mother, date of birth, sex of child, name of child, location of birth—and whether legitimate or illegitimate. There shall be a separate record of birth reported six months after birth, which record shall not be admissible as evidence of any statement therein made, nor shall any certified copy of such record or any part thereof be furnished by the Registrar.

In connection with death, the information to be recorded so far as can be ascertained is as follows: name, sex, age, cause of death, nationality, last place of residence, locality of death of deceased and name of physician attending, if any.

In connection with marriages, the records shall show the district in which occurring, full name of each of the parties, full name of father and mother of each of the parties, age and residence of each of the parties. Further than the foregoing, the law does not state what statistics shall be compiled and published by the Registrar General. The law does, however, provide the method of filing the records.

The Board of Health may issue permits to persons holding poisonous drug sales license; holder of such permit may sell opium on written prescription of a duly licensed physician.

BUREAU OF THE BUDGET

Bureau Head: J. W. Lloyd, Director of the Bureau of the Budget.

Appointment: Appointed by the Governor. (Confirmation by Senate not required.)

Term: At pleasure of the Governor.

Qualifications: None named.

Compensation: \$7500 per annum—by statute.

Law References:

Act 56, S. L., 1925—Providing for a Territorial budget system; Governor to transmit budget to Legislature prescribing contents thereof. Creation of Bureau—functions. Providing for Director of the Bureau; appointment, salary, duties and appropriation for expenses.

J. R. 9, S. L., 1927—Vesting control of publicly owned automobiles in Director.

Activities: In 1925 the Legislature provided for the creation of the Bureau of the Budget, to be in charge of a Director, appointed as aforesaid. The Bureau, under such rules and regulations as the Governor may prescribe, is charged with preparing for him, the budget, and any supplemental or deficiency estimates and in this undertaking has authority to assemble, correlate and revise the estimates submitted by the several departments or establishments of the government. The budget contains:

(a) Estimates of the expenditures and appropriation for the support of the government for the ensuing biennium.

(b) Estimates of the receipts during the same period.

(c) The receipts and expenditures during the last completed biennial period.

(d) Estimates of the receipts and expenditures during the biennial period then in progress.

(e) The amount of appropriations available for expenditure

during the biennium in progress as of February 1st next preceding each regular session of the Legislature.

(f) Balanced statements of the condition of the treasury at the end of the last completed biennial period, the estimated condition of the treasury at the end of the period in progress and the estimated condition of the treasury at the end of the ensuing biennial period under the proposals contained in the budget.

(g) All essential facts regarding the indebtedness of the Government, and

(h) Other facts and data relating to the financial condition of the Government.

The Bureau further may by direction of the Governor make detailed studies of the various departments for the purpose of enabling the Governor to determine the nature of changes that may be desirable in promoting greater efficiency throughout these several departments. In connection with this function, all departments are to render such assistance and to make available such information as the Bureau may from time to time require.

Upon the request of any Committee of the Legislature having jurisdiction over revenue or appropriations, the Bureau shall furnish such aid and information as may be desired.

The Director of the budget, with the advice and consent of the Governor, has authority over all publicly owned automobiles, excepting the official car of the Governor, in their control, maintenance and use and disposal. He may further determine a reasonable automobile allowance for those officials or agents to whom a public car has not been assigned.

Sec. 80 Org. Act—Appointment of Commissioners of Agriculture and Forestry.

Ch. 47 R. L., 1925 as amended by Act 54 S. L., 1927 Act 215 S. L., 1927 Act 264 S. L., 1927	}	Providing for the creation of the Board, appointment of Commissioners, qualifica- tions, tenure of office, general duties, ex- penses and appointment of Executive Secretary.
--	---	--

Act 54 S. L., 1927—Prescribing powers and duties relating to forestry, entomology, plant inspection; to the animal industry and to fish and game. To make rules and regulations in conformity with the laws, etc.

Activities: The functions and activities of the Board of Agriculture and Forestry are divided as follows:

The administrative work of the Board is conducted by the *Executive Secretary* who assists the President as *Executive Officer*. He is appointed by the Board with the approval of the Governor, and his compensation is fixed from time to time by the Legislature.

The Board appoints a *Superintendent of Forestry*, to be known as the "*Territorial Forester*" to direct the *Department of Forestry*—and by virtue of his office he is, ex-officio, "Chief Fire Warden" of the Territory.

He has control of all matters pertaining to forests, Forest Reservations, the protection of sources of water supply, control of stock within Forest Reserves, prevention and control of forest fires, reforestation, the elimination of wild stock, when necessary, and other incidental and related activities.

Foresters may be appointed by the Board in the several districts of the Territory to assist in carrying out the law. They serve at the pleasure of the Board without pay. The Board further may appoint and fix the compensation of Assistant Foresters and Forest Rangers who have police powers concerning all matters relating to forests or Forest Reservations and the provision of the law under which the Board is authorized.

The Chief Fire Warden has charge of all Fire Wardens and directs them in their duties in the prevention, control and extinguishing of forest fires. These District Fire Wardens are appointed by the Board in such number and localities as appears advantageous. They report all fires to the Chief Warden and are authorized to take immediate steps toward extinguishing the same and to this end he may summon able bodied persons and requisition needed equipment and incur expense thereof.

An entomologist, who is ex-officio Chief Plant Inspector, is appointed by the Board. He is in charge of the *Department of Entomology* concerned with the means for the control and extermination of agricultural and stock pests, plant diseases, destructive insects; with the eradication of noxious shrubs and weeds as are already in the Territory, and preventing the introduction of those not yet here.

One or more Assistant Entomologists and other employees as required, may be appointed by the Board.

The *Superintendent of Animal Industry*, known as the "Territorial Veterinarian" is charged with all matters relating to the inspection of animals and the prevention and eradication of diseases among animals and generally, to the animal industry throughout the Territory. He enjoys the powers, privileges and immunities of an Officer of the Board of Health.

Bacteriologist, Deputy Veterinarians, Livestock Inspectors and other employees may be appointed by the Board as needed.

The Board has the power to quarantine any domestic animal, or destroy the same, for cause.

The Governor may, by proclamation declaring any port or country infected, prohibit the entry of any animals therefrom until the restriction be removed.

By Act 264, S. L., 1927, the Fish and Game Commission is abolished and all its powers and duties vested in the Board

of Agriculture and Forestry. In carrying out these powers and duties, the Board has established a *Fish and Game Division*, headed by a *Chief Warden*. This Department is charged with enforcing the laws relating to fish or wild game within the Territory and waters, subject to its jurisdiction, of establishing suitable fish hatcheries and game propagating stations, importing selected game, fish or spawn for the purpose of propagating the same in the Territory; and distributing, free of charge, fish and game for the purpose of increasing the food supply.

Permits for commercial fishing boats are issued by the Board.

Hunting and Fishing *Licenses* expiring on June 30th of each year, are issued by the Treasurer of any of the Counties, or by this Board, upon payment of the license fee. All fees so collected are paid into the Treasury of the County or City & County wherein collected; the same to be used for the preservation, propagation and importation of game birds and fish within such Counties.

Appointment: Five members appointed by the Governor, with consent of the Senate, who in turn appoint a Chairman.

Term: Three years; rotating.

Qualifications: Citizen having resided in Territory at least three years next preceding appointment.

Compensation: None allowed.

Law References:

Sec. 1172 R. L., 1925—Creating Board of five members; appointment, and tenure of office.

Sec. 1173-74 R. L., 1925—Authorizing Board to establish and maintain home for feeble-minded; to establish rules and regulations; appoint Superintendent and other personnel; fix salaries, etc.

Sec. 1175-81 R. L., 1925—Defining feeble-minded persons; those entitled to admission; commitment; parole and discharge, etc.

Sec. 1182 R. L., 1925—Disposition of funds accruing from agricultural or industrial pursuits.

Duties and Activities: The Board of Commissioners for the Home for Feeble Minded (Waimano Home) is charged with the establishment and maintenance of a Home for Feeble-minded, conducted on the "Farm Colony" plan.

It has authority to prescribe rules and regulations for the management of the Institution; to appoint qualified personnel and other employees and to perform all other necessary acts in the conduct of the Home.

Persons, if not insane, who are feeble-minded, mentally deficient or epileptic, are entitled to admission to the Home, subject to the prevailing rules and regulations governing admission.

Commitments may be made:

(a) By a Court of competent jurisdiction.

(b) The Board may enter into agreement with parents or guardians of feeble-minded persons, not committed by a Court,

to assume their custody and training and to fix the compensation to be paid therefor.

(c) The case of a dependent or delinquent child before a Juvenile Court may be adjourned and the child committed to the Home on competent evidence that the child is feeble-minded.

(d) On conviction of a person of a crime, misdemeanor, or on a child being found liable to be sent to an Industrial School or other Institution, the Court if satisfied on the evidence that the person or child is feeble-minded, may suspend sentence and commit such person or child to the Home for Feeble-minded.

Parole or discharge may be granted by the Board when it appears that the inmate will be properly cared for or that his detention is no longer necessary.

Proceeds from the agricultural and industrial pursuits are available for the use of the Board in the operation of the home.

Appropriations for support are made biennially by the Legislature.

F. Lang Akana—Executive Secretary

Sadie C. Steritt—Supt. Girls' Industrial School

George A. Wesson—Supt. Boys' Industrial School

Appointment and term: Judge of Juvenile Court of First Judicial Circuit, ex-officio member. Six members appointed by

Governor, with consent of the Senate. Three shall be women, to serve for term of 4 years. Term of three members expires every 2 years.

Compensation: No compensation to Board Members; actual expenses only.

Law References:

Ch. 30 R. L., 1925, Sec. 352-355—Creating board of seven members for management and control of Industrial and Reformatory Schools; tenure of office, etc.

Sec. 356-357 R. L., 1925—Providing for establishment and control of Industrial and Reform Schools when necessary and when funds available by Legislative appropriation.

Sec. 357-360 R. L., 1925—Board to prescribe rules and regulations for its organization; for method of handling funds appropriated and for other purposes.

Sec. 358 R. L., 1925—The "Industrial School Budget." All appropriations for the Board's use shall be made from the general revenues of the Territory *and not* out of the special fund for the maintenance of public schools.

Sec. 359-360 R. L., 1925—Refers to personnel records and certain financial records and annual reports to the Governor.

Sec. 361-370 R. L., 1925—Defines object of schools, plan for commitments, care and treatment of the children, etc.

Activities: The Board of Industrial Schools has the entire management and control of all public Industrial and Reformatory Schools in the Territory and of all places of detention used in connection therewith.

The Board has power to make rules and regulations, not contrary to law, providing for the organization of the Board, for the control and operation of all schools under the Act, for the methods by which available funds are expended and for other necessary purposes.

The "Industrial School Budget" is prepared on or before the 15th of December and beginning with 1918 for every second year thereafter, showing the estimated expenses of all operations and the expenses of the Board.

Complete and detailed personnel records shall be kept of all inmates in every school and an account kept of all moneys and other avails received for work performed, together with authorized expenditures therefrom.

Annual reports shall be made to the Governor for each calendar year, such reports to contain a full statement of all financial and other transactions of the Board, and information concerning the condition of the schools.

"The *only object* of the schools shall be the detention, management, education, employment, reformation and maintenance of such children as shall be committed thereto, who shall be surrendered to the Board as guardians thereof for the term of

their minority or who shall be received at such schools as by law provided."

District Magistrates, Circuit Courts and Circuit Judges within their discretion, may commit offenders duly convicted before them, under 18 years of age, to industrial and reformatory schools for any term within their minority—the above officials, on proper representation, have the power to sentence for any term within their minority, any child under 18 years of age who lives an idle or dissolute life, whose parents are dead, or who shall neglect such child.

The Board has power to accept from parents or guardians, the surrender of a child for the period of minority—and the application of fees for such children is at the discretion of the Board.

Briefly, the institutions care for all juvenile delinquents who are not paroled or put on probation by the Juvenile Court in Honolulu or the Circuit Judges elsewhere in the Territory, who act as Juvenile Judges.

Instruction is chiefly vocational and the children receive some portion of their earnings.

There are now two Industrial Schools under supervision of the Board; one for boys, located at Waialeale, Oahu—and one for girls, at Kailua, Oahu.

Appointment: For County Free Library, board of 5 members appointed by the Board of Supervisors to serve for term of 2 years, without compensation.

Qualifications: None named.

Law References:

Ch. 36 R. L., 1925—Establishing County Free Libraries.

Managing board appointed, duties, etc. County librarians, qualifications, duties, conventions and reports.

Relations with Free Public Libraries and Library of Hawaii.

Duties and Activities: County Free Libraries may be established in the several Counties of the Territory by the Boards of Supervisors, who appoint a managing board of 5 members who have general supervisions and control over the Library and make necessary rules and regulations within the law, for the administration thereof.

The Board appoints the county librarian on recommendation of the Board of Trustees of the Library of Hawaii and other employees; establishes branch stations, etc.

Annual reports concerning the operations and requirements of the Library are submitted to the Board of Supervisors and to the Trustees of the Library of Hawaii, which reports are in turn incorporated in the Report of the Library of Hawaii.

The County Librarian shall be the executive head in charge of the activities of the Library and it shall be the duty of Librarians to attend the annual conventions of County Librarians, called annually by the Library of Hawaii.

Instead of establishing a separate County Free Library, a Board of Supervisors may contract with an existing Free Library to the end that such Library assume the functions of a County Free Library.

It is this last provision of the law that was exercised for the County of Hawaii, with the Hilo Public Library—and for Kauai, with the Kauai Public Library Association. The Maui County Free Library was established directly by the Supervisors. Principal support for these institutions is appropriated biennially by the Legislature, supplemented by private and County funds.

FARM LOAN BOARD

Board Members:

	Term Expires
C. T. Bailey, Commissioner of Public Lands.....	Ex-officio
Henry C. Hapai, Treasurer, Territory of Hawaii.....	Nov. 30, 1929
H. R. Hewitt, Attorney General.....	June 21, 1932

Appointment: Three (3) members appointed by the Governor, with advice and consent of the Senate.

Term: Four (4) years.

Qualifications: Attorney General, Commissioner of Public Lands and Treasurer of the Territory shall be eligible.

Further qualifications not named.

Compensation: \$100.00 per month and necessary traveling expenses. When officials as above named are appointed, they shall receive the compensation herein provided in addition to their salaries as officials of the government.

Law References:

Ch. 48 R. L., 1925—Creation of Board, powers and duties.

Act 269 S. L., 1925—Increasing salary of Secretary to \$400.00 per month, and traveling expenses.

Activities: The Farm Loan Board consists of three members and an Executive Secretary. The several Tax Assessors, Deputy Tax Assessors and Sub-land Agents throughout the Territory are constituted agents of the Board for the purpose of appraising the value of any property which may be the subject of a loan and for such other matters as may be directed by the Board. Such agents serving generally without additional compensation.

The Board is authorized to make loans secured by first mortgage on farm lands within the Territory and also to accept as security for any loan, a mortgage over livestock, over chattels and on growing crops, and to exercise such incidental powers as may be necessary.

Persons making application for loans shall be citizens of the United States and residents of the Territory for the preceding three (3) years and bona fide residents on the land in question, as defined in the Act.

Loans may be made:

(a) To provide for the purchase of agricultural land.

(b) For buildings, fences and certain other permanent improvements, for the cost of the preparation, planting and cultivation of land, purchase of fertilizers, seeds and farming equipment and for purchase of livestock.

(c) To liquidate any indebtedness by farm land-owners when incurred in the approved purposes of the act.

Loans to any one borrower shall be limited in maximum amount to \$5,000 and be not less than \$100.00. All mortgages bear simple interest at 6% per annum, and no loan shall exceed 60% of the value of the security offered.

In all cases the Board satisfies itself as to:

(a) The desirability of the proposed expenditures.

(b) The nature and value of the security.

(c) The prospect of a fair return to the applicant.

(d) The moral risk of the applicant.

(e) The bona fide residence of applicant.

The activities of the Board extend to a supervision of the proper maintenance of buildings, improvements, stocks, im-

plements and condition of lands, systems of husbandry, to the application of funds derived from loans, and generally, to rendering the borrower constructive assistance and advice in his various undertakings.

To facilitate the functions and operations of the Farm Loan Board, the Act provided for the creation of three (3) funds:

1st. The "Reserve Fund" for which an appropriation of \$15,000 was originally allotted. All fees received and interest on loans collected are credited to this fund and all losses are paid into the Revolving Fund from the Reserve Fund.

2nd. The "Revolving Fund" received an original allotment by appropriation of \$100,000 and later transfers from the "Surplus Fund", to be loaned by the Board. All payments received on account of principal are credited to this Fund.

3rd. The "Surplus Fund" receives certain substantial revenues collected by the Commissioner of Public Lands. The proceeds from land rentals ceased in April 1924 and the proceeds from land sales ceased by Act 101, S. L., 1927, as of April 20, 1927, thereby abolishing this fund. In so doing, \$100,000 was transferred to the General Fund in payment of the amount originally appropriated and \$731,794.24, the balance, transferred to the Revolving Fund.

Act 251 S. L., 1927—Act extended to include with the system, certain County and City & County employees.

To administer the affairs of the Territorial Retirement System and its relation to the Territory, County and City & County Governments and employees thereof.

Activities: The *Employees Retirement System* began operation January 1, 1926 under provisions of Act 55 S. L., 1925, providing for employees of the Territory and for teachers in the public schools. The Legislature of 1927, Acts 223 and 251, amended the act so as to open the membership to County and City & County employees, the membership of this class beginning January 1, 1928, not making membership compulsory and allowing service credits for duty under the Monarchial and Provisional Republic Governments.

The payment of pensions granted under the former Teachers' Retirement Fund and pensions in force June 30, 1925, are continued under this act.

The Board of Trustees, appointed as aforesaid, administers the system, invests its funds and appoints an actuary, who, as technical advisor to the Board, makes valuations and performs all other actuarial services necessary.

A Medical Board which passes on all cases where medical examination is required—and such other personnel as may be required.

The act provides that the Attorney General shall act as legal advisor to the Board.

The system is a jointly contributory system in which the share of the cost to the employee and to the Government is approximately equal.

Members contribute at rates set for their respective ages at becoming members; rates being so set that the accumulated contributions, with interest, will provide an annuity approximately equal to the pension which will be payable at age of 60, etc.

The Territory contributes at rates sufficient to provide $\frac{1}{2}$ of the service retirement allowance, that part of disability retirement allowances not provided by member contributions and death benefits.

A retirement allowance shall be granted at age of 60 upon demand of an employee, but is compulsory at age of 70.

Biennial appropriations are made by the Legislature to cover the expenses of the system.

An annual report is published not later than January 1st, showing in detail the fiscal transactions of the system for the year ending on the preceding 30th day of June.

Activities: The Commission has general supervision over all public utilities doing business in the Territory, and under its vested powers may examine into the condition of any utility with reference to the accommodation of the public, its employees, tariffs, accounting systems, valuations of property, securities and financial transactions, business relations, compliance with laws and provisions of its franchise or charter and to all matters concerning the relations between it and the public.

Investigations may be instituted by the Commission, or when requested by the utility or upon an appropriate complaint to the Commission, and resulting from such examination, the Commission may regulate the rates, tariffs and practices of the utility in question and enter the corresponding orders therefor.

The Commission is authorized to employ all necessary legal, technical and clerical personnel and as now constituted, in addition to the members of the Commission, the organization includes a secretary, auditor, engineer and counsel. However, the Attorney General shall act as attorney for the Commission, when so requested.

In the exercise of its functions, the Commission is empowered to make all necessary and consistent rules and regulations respecting its procedure.

Under the present laws the term "public utility" includes persons or agencies who own or control any plant or equipment operated for public use within the Territory for the transportation of freight and passengers (excepting an aerial transportation enterprise which are not subject to regulation by the Commission until after June 30, 1933) also telephone, telegraph

and wireless systems and for the production and distribution of light, power, heat, cold, water, gas or oil and for warehousing purposes.

The Commission receives certain minor fees, placed to the credit of the "Public Utilities Commission Fund" and also in March and in September of each year, from each utility under its jurisdiction, a fee equal to 1/20 of 1% of the gross income during the preceding year, plus 1/50 of 1% of the par value of stock outstanding as of December 31st of the preceding year; and the moneys in this fund are appropriated for the payment of all authorized expenses of the Commission.

L., 1927—Declaring project as provided by the Hawaiian Homes Commission Act of 1920—and administered by the Hawaiian Homes Commission a success and requesting the Secretary of the Interior to approve the extension of the activities of the Commission and urging Congress to extend the provisions thereof to all of the Islands, etc.

Act of Congress March 8, 1928—Amending provisions of the Act providing that all "available lands" with certain exceptions, be under control of the Commission.

Restricting to 20,000 acres the area to be disposed of for settlement in any five year period. Increasing "Loan Fund" to \$2,000,000.

Duties and Activities: The Hawaiian Homes Commission is charged with the administration of the "Hawaiian Homes Commission Act 1920" and amendments thereto, the most recent amendment being by Act of Congress, March 8, 1928. This Act is the sole purpose of placing Hawaiians on lands throughout the Territory and it became operative on the date of the first meeting of the Commission, September 16, 1921.

Under the terms of the Act, large areas of public land on the Islands of Hawaii, Maui, Molokai, Oahu and Kauai, with certain specified exceptions, were designated as "available lands" but it restricted the occupancy and use during the first five year period to farm lands and house lots on Molokai and to house lots at Keaukaha, near Hilo, Hawaii.

Following the five year period, but within the three years following allowed for such action, request was made (J. R. No. 1, S. L., 1927) for approval of the Secretary of the Interior and for appropriate action by Congress, extending the Act more

to the lands on the other Islands and for certain other amendments.

By Act of Congress of March 9, 1928, the desired amendments were enacted restricting, however, the area to be disposed of for settlement in any calendar five year period to 20,000 acres—and increasing the Loan Fund from one to two million dollars and making certain provisions regarding the status of “available lands.”

The Commission is authorized to lease to native Hawaiians *agricultural lands* in tracts of from twenty to eighty acres; *first class pastoral lands* in tracts from one hundred to five hundred acres; *second class pastoral lands* two hundred fifty to one thousand acres—and *residence lots* each of one-half acre, or more.

Lessees pay an annual rental of one dollar and the lease runs for a period of ninety-nine years, with provisions relating to use and occupancy, taxes, loans, mortgages, etc., all of which acts of the lessee are fully controlled by the Commission.

The law provides for a Revolving Fund, known as the “Hawaiian Home Loan Fund” limited in amount to \$2,000,000. Receipts from leasing of certain “available lands” and 30% of Territorial receipts from the leasing of cultivated cane lands or from water licenses are *covered* into this Fund up to the specified limit. In addition, the Fund receives installments paid by the lessees in the liquidation of loans and moneys received by the Commission from any other sources.

Loans may be made for the following purposes:

(a) The erection of dwellings and for permanent improvements thereon.

(b) The purchase of livestock and farm equipments; and

(c) Otherwise assisting in the development of tracts.

The amount of such loans to any one borrower at any one time being limited to \$3,000, but in the case of the holder of a residence lot, the limit is fixed at \$1,000.

The law provides that loans shall be repaid on an amortization plan with interest at 5% per annum and so arranged that the debt will be retired in not more than 30 years, unless specifically extended by the Commission. No lessee of any tract shall be eligible to receive any loan in respect thereto under the provisions of the “Farm Loan Act.”

The Commission is authorized to carry on general water and other developments with respect to Hawaiian Home Lands and the Legislature of the Territory is further authorized to appropriate the necessary funds or to issue bonds therefor, with provision for the retirement of such bonds, with funds of the Commission.

All water licenses issued after the passage of the Act are subject to certain demands of the Commission with respect to

the right to the use, free of charge, of water for stock watering and domestic purposes.

Various other rights are conferred upon the Commission with relation to the right to the use of waters of the Territory, both as to Government owned supplies and to developments under license.

1st Judicial Circuit—Arthur C. Alexander.....	Jan. 19, 1931
2nd Judicial Circuit—Daniel H. Case	Oct. 24, 1932
3rd Judicial Circuit—J. W. Thompson	Apr. 7, 1931
4th Judicial Circuit—W. H. Smith.....	Under original appt.
5th Judicial Circuit—Lyle A. Dickey.....	Under original appt.

Appointment: Appointed by the Governor.

Term: At pleasure of the Governor.

Qualifications: Must be a citizen of the Territory and shall have resided therein for at least three (3) years next preceding appointment.

Shall be qualified to settle the matter of boundaries by training and experience therein.

Compensation: A schedule of fees for services is provided by law and the costs of such services and traveling expenses is borne by the petitioner or respondent, or divided between them as the Commissioner may decide, subject to appeal, as provided by law.

Law Reference:

Ch. 42 R. L., 1925—Appointment, tenure, procedure and powers.

Activities: One or more Commissioners are appointed by the Governor, and hold office during his pleasure—not more than one for each Judicial Circuit, but the same person may be appointed for more than one Circuit.

All owners of lands of the several denominations, or portions thereof, within the Territory, whose lands have not been awarded by the Land Commissioners, patented or conveyed by deed from the King or Government, by boundaries decided in such award, patent, or deed, may file with the Commissioner for the Circuit in which the land is located, an application to have the boundaries of the land decided and certified to by said Commissioner.

It is the duty of the Commissioner in each case to obtain all information possible to enable him to arrive at a proper decision, to go on the ground when requested and to order any surveys made that may be necessary. He must keep a record of his proceedings in books, which when filled are to be returned to the Commissioner of public Lands.

Each Commissioner has the same authority in regard to his special jurisdiction as is by law conferred upon District Magistrates. Appeal from the decision of a Commissioner lies to the Supreme Court.

The Commissioner of Public Lands is forbidden to issue any patent in confirmation of an award by name, made by the Commissioners, to quiet land titles, without the boundaries being defined in such patent according to the decision of a Commissioner of Boundaries, or the Supreme Court on appeal.

Duties and Activities: Prepare and recommend to the Legislature any necessary amendments to the Statutes tending to the simplification of the system of pleading, practice and procedure to be used in all actions, motion and proceeding at law or in equity by the Circuit Court and District Courts so as to promote the speedy termination of litigation on the merits, and to report to the 1925 Session of the Legislature. By virtue of his authority as Chief Executive, the Governor has extended the appointments to August 9th, 1930 to afford time for the Commission to report on the subject.

JUDICIARY BRANCH

Title of Department: SUPREME COURT.

Justices: Antonio Perry, Chief Justice; James J. Banks, Associate Justice; Charles F. Parsons, Associate Justice.

Appointment: Appointed by the President of the United States, by and with the advice and consent of the Senate of the United States.

Term: Four (4) years, or until removed by the President.

Qualifications: Must be citizens of the Territory, who shall

have resided therein for at least three years next preceding appointment.

Compensation: Chief Justice, \$10,500 per annum; Associate Justice, \$10,000 per annum. (Part by the United States and part by Territory. Paid in full by the United States Government from and after July 1, 1928).

Law References:

Sec. 80-82 Org. Act—How constituted; appointment of justices; term of office; qualifications.

Sec. 92 Org. Act—Salaries.

Ch. 134 R. L., 1925—Providing for absence of Chief Justice; prescribing general duties, functions, terms of court; to prescribe rules and regulations for procedure, etc.

Ch. 133 R. L., 1925—General provisions; powers in constitutional questions.

Act 83 S. L., 1925—Increasing salaries of Justices; authorizing Treasurer of the Territory to pay.

Functions: The judicial power of the Territory is vested in a Supreme Court, Circuit Court and such inferior Courts as the Legislature may, from time to time, establish.

The Judiciary Department so constituted, is charged with the administration of justice throughout the Territory and is independent, in all respects, of both the Executive and Legislative Departments. The department is presided over by a Chief Justice, whose duty it is to make a report to each regular session of the Legislature of the business of the Department and of the administration of justice throughout the Territory.

The Supreme Court consists of a Chief Justice and two Associate Justices, appointed by the President of the U. S., as aforesaid.

The Court has appellate jurisdiction to hear questions of law, or of mixed law and fact which shall be properly brought before it and in the aid of its appellate jurisdiction shall have the power to issue writs of mandamus, certiorari, prohibition and habeas corpus and all other necessary and proper writs. And incidentally, the Court shall have power to do all such acts and take such steps as may be necessary to carry out effectively the powers granted to it or for the promotion of justice in all matters pending before it.

The Court may make rules and regulations governing procedure before it, but is not authorized to impose costs not expressly provided by law; may prepare and recommend forms for use in the several Courts of the Territory, and such forms shall be as valid as if authorized by statute.

The Supreme Court has the power to examine, admit and reinstate qualified persons as practitioners in the Courts of record and has the sole power to revoke or suspend the license of any such practitioner.
